On the back of the book it says, “Home is a feeling you take with you?” When you think about your hometown what are some of the things you see and how do they make you feel?

What is Papi’s job? What other types of jobs do you see people doing in Daisy’s town?

What are some things that are changing in her town? How does she feel about these changes?

What are some similarities and differences between Daisy’s hometown and your hometown?

CREATE

Materials: paper, pencil, markers/crayons, scissors.

On a piece of thick paper (construction paper or cardstock) draw buildings that you know in your hometown. Cut around the building leaving a tab on each side. Fold these tabs back and the building will stand up on its own.

On a large sheet of paper draw streets. Place your buildings beside your streets.

Fold a small rectangle of paper in half and draw yourself riding a motorcycle, bike, or other vehicle so you can ride around town.
